

December 2019

Dear Parent/Carer,

RE: KS4 Transatlantic Science Leaders (TASL)

We are pleased to announce a new opportunity at Finham Park 2. In January we will be working with a school in America on a joint project linked to space. Taking part in the project will give students a great chance to develop team working and communication skills which will help them in their future careers and studies. Working collaboratively with students from Dennis Yarmouth High School, Cape Cod, USA will help further develop students' science, cultural awareness and networking skills. The project is open to all Year 9 and 10 students.

The TASL project will run from January to June. It will take place between 3:00pm to 4.30pm. During this time, students will have a brief snack break with the teachers before they start their discussions with students from USA via Skype.

As well as working with students in the USA, researching and presenting ideas, we will also be visiting the space centre in Leicester.

We are looking for students who are committed and driven to be part of this exciting and unique project.

We would be grateful if you could support this project by ensuring that your child attends every OOSHL session and are 100% committed to the whole project over the next two terms.

Who? Year 9 or 10

When? Week 1 Tuesday and week 2 Wednesday from 3pm → 4.30pm

Where? Room 1.04

Duration: 2 terms (Jan → July)

If you require any more information, please e-mail either of the teachers below.

Yours sincerely,

Mrs C O'Neill
Leader of Science
